BRAINSTREAM

About us.

Fun & Functional Gifts

Giving is fun. And it becomes even more fun if the gifts are not only funny, but also make sense and will be used in everyday life. It's our mission to create products that are fun and make people laugh, as well as solving a problem and becoming a utensil. "They're fun products and innovative products that have not been around like that. They make people smile and are functional. Plus they tell a story and one can talk about them" Dr. Gabriel, founder and CEO of the company explains.

BeepEgg®

Our company has been built on solving a technical problem, not on a need for a gift. We were not able to boil eggs on point. "Sometimes they were too soft, sometimes they were too hard, but rarely the way I wanted them to be" Dr. Gabriel remembers. The "brain" behind Brainstream wanted to invent a product which solved his problem. So we hatched

Markus Gabriel, CEO

BeepEgg – the singing floating egg timer – our first and most successful product.

Family Business - Made in Germany

The family owned and run company is committed to “Made in Germany”, as production takes place in Bielefeld, Germany. Most components are locally sourced and will be purchased from suppliers nearby. This does not only feel right, it also guarantees high quality and flexibility.

Soulmate Products

As we’re not the only small company with great ideas, and as many inventors don’t have a network to enter markets, we sometimes join forces with other creative minds and produce or distribute soulmate products of other inventors.

Have fun browsing through this catalog of our crazy and clever world.

SOL.

The purse light.

SOI.

Let there be light.

A study has recently revealed that women spend 76 days of their life searching through their purse. SOI finally offers a solution to that endless search for keys, smartphone, lipstick and what not. An automatic purse light. A true time saver with an automatic sensor function. SOI comes with an integrated sensor that

detects the hand and makes it turn off automatically as well. Without any annoying buttons, switches or alike. Plus, it's a natty little item in a timeless design. Last but not least, it also is sustainable, as it comes with exchangeable batteries that last for more than 6000 cycles and in a recycled cardboard packaging.

Princess Tower

Build your own cake stand.

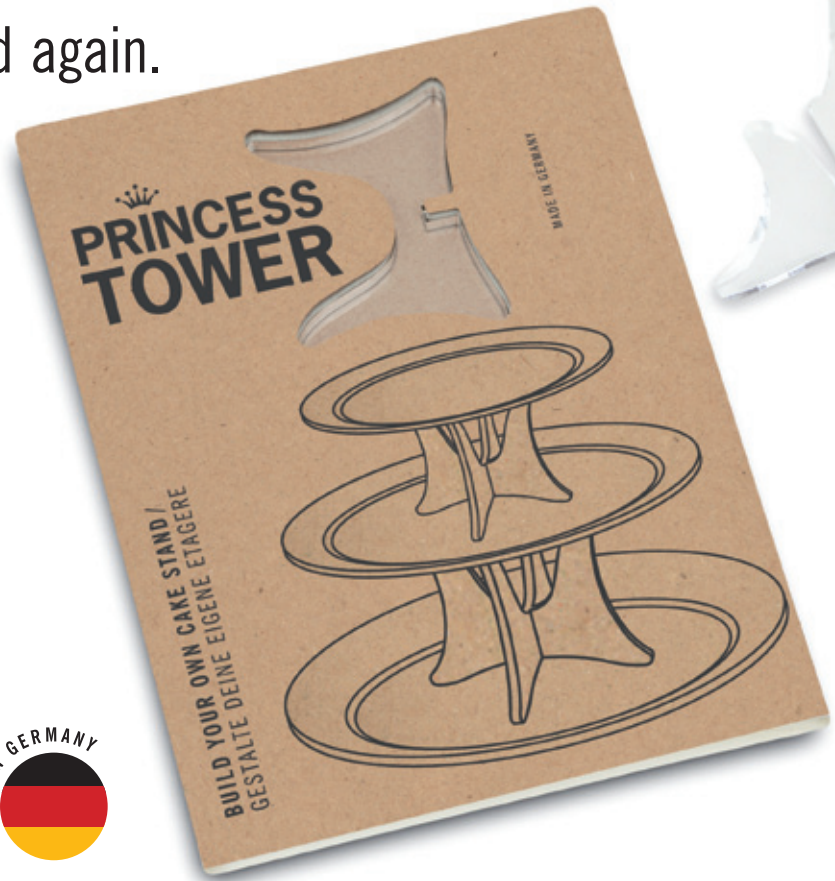

Princess Tower

New combinations again and again.

Cake stands are back. Cooking or baking is a hip thing nowadays, so people love to share – and to present.

But cake stands take a lot of space and are a real dust trap. Princess Tower puts an end to that problem. With Princess Tower everyone can be creative and combine one's favorite china in a flexible way to build an individual cake stand. And once you don't need it anymore, just return the china to its drawer. Space saving and perfect for every occasion.

The recycled cardboard packaging conveys a sense of value and makes it a perfect gift – along with your home made delicacies, of course.

drip.line

The multi-functional kitchen drainer.

drip.line

Drainer and sink-rail.

Where to put the wet stuff? This multi-functional kitchen drainer puts an end to all the „where to put this and that“ around the sink questions. It can be applied as a sink draining rail for sponges, dishcloths or brushes and is a real germ stopper there.

But as it's truly multi-functional, it can also solve other problems. It's perfect to drain fresh washed food, like berries or a salad and also great to drain cooked pasta or rice. Plus it can provide reusable bottles an angle to dry completely, same for pans and lids.

A real problem solver in the kitchen.

Angry Mama

The easy way to clean your microwave.

Angry Mama

Super clean. Free of chemicals.

Angry Mama gets seething with rage once she observes dirt in the microwave.

No matter if it's the remains of tomato sauce, soup or the latest pasta dish, microwaves tend to get dirty easily. Angry Mama is the new companion for the dirty work. The only thing she needs is some white vinegar, a bit of water and 3 minutes in the microwave. The steam coming through her head will solve the dirt remainders. Then, just wipe out your microwave with a towel or cloth and your microwave is fresh again.

As Angry Mama doesn't need any chemicals, it's not only dead easy, but also very eco-friendly.

Angry Mama is the perfect gift for those that are not really into cleaning that much. No matter if it's the student's dorm room, the office kitchen no one feels responsible for, or just home.

Firewire

The flexible grilling skewer.

FireWire

Born-2-Grill.

75 cm of stainless steel that inspire. Finally a skewer that puts an end to wooden skewers that burn on the grill. Plus FireWire fits every grill and is lots of fun.

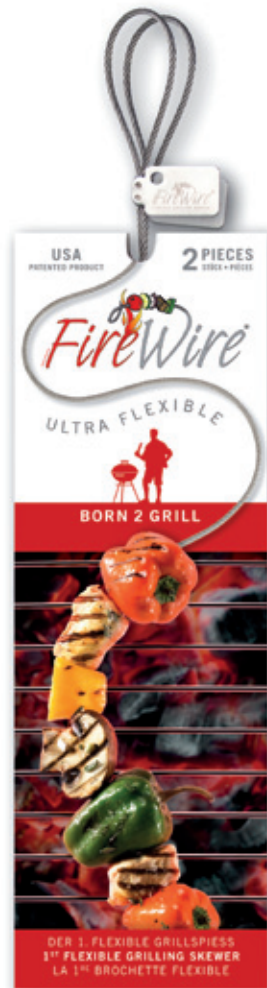

FireWire is easy to use, from marinating to grilling and serving. Its flexibility allows FireWire to fit small and large, rectangular and round grills. It also fits a marinating bowl or bag, meaning you don't have to touch the marinated meat or vegetable pieces again, but just put the whole marinated skewer on the grill.

A great gift. Not only for him, but for sure for him as well.

Al Dente

The singing floating pasta timer.

Al Dente

Perfect pasta made easy.

Al Dente looks like a Mafioso, but all he wants to do is to help.

Originally he came from Italy and brought cultural goods along. Once the pasta is al dente, he will sing Italian themed tunes. The pasta timer will be plunged into the water together with the real pasta.

He works on an electronic pasta-cooking-program which will play four songs – each tune being godfathers for different styles of pasta.

Al Dente

BeepEgg[®]

The singing floating egg timer.

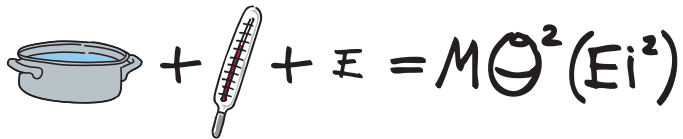

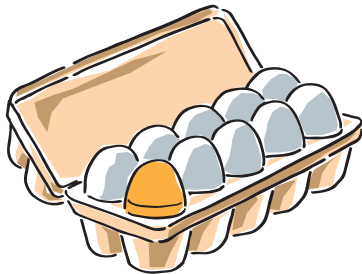

The Facts

What you always wanted to know about BeepEgg®.

How does BeepEgg® work?

BeepEgg® constantly measures the outer temperature. With this data it calculates the core temperature of the egg. BeepEgg® knows at which temperature each stage is perfect. Once the egg has reached the desired stage, BeepEgg® will play a melody.

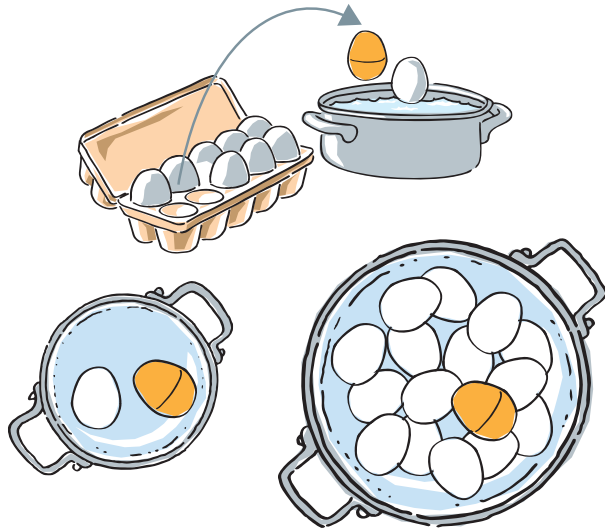

Does BeepEgg® work everywhere?

Yes, due to its thermo-model, it works at all altitudes and under all conditions. You can use it during diving excursions (you'll need a submarine, though) as well as on the Himalaya or at sea level. Boil one egg or twenty at a time, start with cold or boiling water. BeepEgg® is always on point.

Why does BeepEgg® not live forever?

Due to food safety reasons, we have to seal the electronic part containing the battery. Therefore the battery cannot be exchanged. There is a 2-year warranty though, and at regular usage, it lasts way longer.

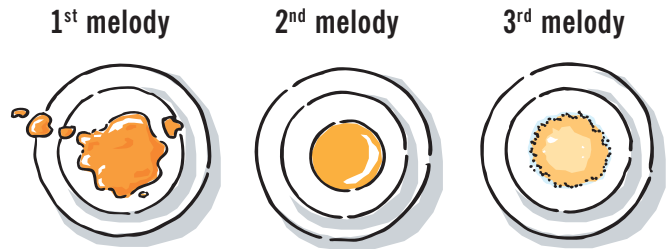

How to meet my personal taste on point?

Each edition plays three melodies, each melody signaling one level of hardness. These three different tunes will each be repeated several times to meet the egg sizes as well as personal fine tuning possibilities.

Where does BeepEgg® come from?

BeepEgg® is a quality product and “Made in Germany”. A German invention which is also produced on our home turf.

BeepEgg® Classic

Boiling eggs the easy way.

BeepEgg® Classic is the basic BeepEgg® edition.

Once the desired degree has been reached, BeepEgg® will play three different tunes for the different egg levels. It plays

“Killing Me Softly” for soft-boiled, the
“Triumphal March” for medium-boiled and
“A Little Nightmusic” for hard-boiled eggs.

BeepEgg® Editions

Whatever you want.

When perfect soft-boiled eggs will be announced by “The Godfather Theme”, that’s an offer the dippy egg fans can’t refuse.

Once “Hit the Road Jack” plays, don’t leave the kitchen, but be sure Camping BeepEgg will tell you that medium-boiled eggs are on point.

And with “Fifteen Men on a Dead Man’s Chest”, be assured this egg won’t turn into a chicken anymore. It’s perfectly hard-boiled.

Different styles, colors and tunes, but one mission:
The perfect boiled egg

Drop

Aesthetic + Sustainable + Useful.

Drop

Carry your Egg Cup.

Finally, an eggcup that is aesthetic, sustainable and useful all at once.

Aesthetic – as it is of a design language that is straightforward and cites design eras from the past. The Drop lives up to its name, visually speaking.

Sustainable – as we chose bamboo fiber as raw material, degradable and renewable. In addition, bamboo fiber has a great, soft touch.

Useful – because Drop is stackable as well as dishwasher safe. Drop also offers space for the eggshell. Its light, natural colors round up the circular flow of raw material, form and function.

The handle is perfect for carrying it to the breakfast table. Moreover, for an egg and spoon race...

rocket

The egg cup without the cup.

rocket

Lifting up your breakfast.

The most elegant way to enjoy your breakfast egg. Metal made, break-proof, powder-coated and dishwasher-safe. The design is as reduced, straight-forward and logical as it can be.

All you need to hold an egg is a ring, placed on a triad to guarantee maximum stability. It doesn't take more than that. Weight, touch and look also make it a classy and valuable gift.

EggChair

A somewhat different egg cup.

EggChair

EggChair – the highlight for your breakfast decoration. A design classic chair switches services and now gets its work done in the kitchen. EggChair is not only a look good, though, but also functional.

Flexible and dishwasher-safe, does it also contain a suction cup, which guarantees safe hold on the table. EggChair comes in five modern colors.
